

Ice Cream Hire Agreement & Disclaimer

The **agreement of hire** includes the following **conditions of hire**:

Ice Cream Machine Hire Agreement & Disclaimer

Payment must be made in advance and an agreement of hire must be signed by a responsible adult prior to us leaving the equipment. The **agreement of hire** includes the following **conditions of hire**:

- Any damage or loss will be subject to a payment to repair or replace.
- The Ice Cream Machine must either be undercover or have a suitable back-up undercover location agreed in the event of rain – the unit must not be outside in rain if uncovered. The machine may struggle in direct sunlight.
- The Ice Cream Machine requires an electrical power source, a standard plug socket is sufficient or 2.5KVA generator. If you fail to supply power, we cannot serve ice-cream.
- Do not share the electric socket with another item as this will affect the ice cream machine's ability to produce ice cream.
- Adults only may serve the ice-cream when hired without an attendant
- You will be shown how to top up ingredients when hired without an attendant

Access and space required

- **UNLOADING.** We require that there be sufficient parking space for a transit van to park and unload close (less than 15m) to the place of hire.
- **PARKING.** If there is not free parking available on site, additional parking costs will be incurred – please inform us of the parking arrangements prior to the event. If we are not informed of parking difficulties, there may be a delay to service if the attendant has to locate a parking space, prior warning will ensure we have plenty of time to park and get back to the venue before service commences.
- **WORKING AREA;** The Ice Cream Machine needs an operating space of 3m x 2m. Please ensure that the surface area is reasonably flat and free from debris. The ice cream machine has vents in the side. Leave plenty of space |(at least 30cm) around this. Also it works best in cool rooms, so avoid locating in hot areas (near ovens, kitchens, greenhouses).
- **HEIGHT.** We require a minimum of 2.5m (8ft). Please ensure this is checked and that there are no light fittings, pipes etc which reduce the actual height of the area where the trike will be situated.
- **PACKING AWAY.** We do require clear access when packing away, guests may need to move to other areas to allow us to move the equipment.

Ice Cream Disclaimer

I, the hirer, agree that I have been shown how to use the equipment and will abide by the operating instructions.

I personally accept all responsibility in connection with the ice cream machine, for any harm, injury, loss or damage including all associated risk I further state that I am of lawful age and legally competent to sign this agreement.

I further state that I am of lawful age and legally competent to sign this agreement.
